Shower or bath? No question!

The answer is **TWINLINE**. This is the trendsetting and multiple award-winning alternative to the conventional bath or shower solutions. This is because it's both- a bathtub and shower in one! It is made possible by an integrated shower door, which gives easy and comfortable access into the bath and shower area. Pure comfort!

The 2x1 in the bathroom.

Exclusive from Artweger

Silicone-free WALK IN solutions

The solution with the Walk In is that the end profiles of the Artweger ZERO can be recessed into the wall and floor. Only the glass is visible - nothing else. The 8mm thick glass is fixed to the wall and floor with transparent seals. This gives a particularly narrow, regular and silicone-free joint.

Transparent seals replace silicone joints.

ARTWALL wall panels

ARTWALL is a modern wall system for bathroom renovations. The ARTWALL wall panels have been developed especially for wet areas and can be fitted directly onto an existing sealed tiled surface, or on to the wall.

Bathroom renovation made easy

 The fine ART of bathing

The fine ART of bathing

Innovation and quality from Austria

Artweger is a family business with production in Bad Ischl, Austria.

Our goal is to make your life a little easier. Therefore, we are constantly looking for new ways to offer you more comfort and innovation in the bathroom. Our products prove themselves with their long-lasting reliability and sophisticated design! Above all, we offer great value to our customers!

ARTCLEAR GLASS

Clean glass for the lifetime of the shower

ARTCLEAR GLASS is a new permanent, easy-clean glass for shower panels. Here the glass is specially treated and hardened with UV light. This protects the glass from aging and corrosion and reduces the amount of cleaning required.

- Water pearls off, lime-scale and dirt can hardly get a grip.
- Permanently reduced cleaning
- Holds for the lifetime of the shower

Less cleaning

Exclusive from Artweger

Our promise: We will make your life easier

Easy to clean due to hinges fixed on the outside

With many Artweger shower panels the hinges and fittings are fixed on the outer side. This means that the inner side of the glass is completely free from grooves, joints and protruding parts on which limescale and dirt can gather. Together with ARTCLEAR GLASS, this makes Artweger shower panels especially easy to clean.

For the last 20 years, Artweger hinges have been fitted using a tried and tested glueing technique which enables easier cleaning of the shower glass.

Easy Care

360° Barrier-freedom

Artweger swinging doors with their patented 360 TWIN-hinge, open up to 180 inwards and up to 180 outwards. This enables a completely free and flexible entry to the shower area and gives more freedom of movement in the bathroom.

Patented barrier-freedom in the bathroom - the 360 TWIN-hinge.

360° Barrier-freedom

HIGHLIGHT

Exclusive from Artweger

Picture: Artweger 360

Added Value: More comfort- long satisfaction

Folding doors with the 360 TWIN-hinge enable elegant space saving solutions. In their resting position, the door panels rest against the wall and you have more space in the bathroom! When showering, the folding doors are opened to give a roomy shower area.

Simply fold the shower area away for more free space in the bathroom!

More space in the bathroom
